

Recalibrating ODL/ E-Learning for Resilience and Inclusiveness: The Pathway

Thursday, 16th September, 2021

Olugbemiro Jegede

Epoch-Making Event

- Commend the great foresight of DLI UNILAG and especially Prof Uche Udeani, The Director
- Global but continental based Colloquium that is the first in Africa to comprehensively address emerging issues in ODL at this time
- The array of high level speakers and officials is legendary and impressive.

INTERNATIONAL COLLOQUIUM
Recalibrating
 Open Distance Education & E-learning For Resilient & Inclusive Education
 THURSDAY, SEPTEMBER 16TH 2021 TIME:11AM

ZOOM Meeting Connect Link:
<https://tinyurl.com/dlicolloquium>
 Meeting ID: 811 2335 5176
 Passcode: UNILAG

SPEAKERS & DISCUSSANTS

DR. NEIL PASINA
 President, International Council for Distance Education (ICDE)

EMERITUS PROF. OLU JEGEDE
 National Open University of Nigeria, Abuja

PROF. MOKITSETI LETSIKA
 UNESCO Chair, University of South Africa (UNISA)

PROF. YEMISI OBASHORO-JOHN
 Dept. of Adult Education, University of Lagos, Akoka

DR. AKANI ODUN
 Africa Strategy Advisor, Lancaster University Lancaster, United Kingdom

ENGR. KAYODE OBEDINA
 Director, Open Distance Education, National University Commission, Abuja

Prof. Olawaleye Ogunlana (FASc) Chief Host

Prof. Ucheana Udeani Host

Prof. Pat Utomi Chairman

Mrs. Eugenia Abu Moderator

Register at: dlil.unilag.edu.ng/colloquium

Mode of Colloquium Hybrid (Largely Physical + Online)

Maradeen Akin Auditorium, Distance Learning Institute, University of Lagos

Introduction

Unpacking Terms Used

- **Recalibrate**: to amend, refashion, modify, alter, change ODL to E-Learning.
- **Resilience**: ability to withstand adversity and bounce back from difficult life events.
- **Inclusiveness/inclusivity**: practice or policy of providing equal access to opportunities and resources
- **Getting rid of discrimination and intolerance**

Normality?

- The condition of being normal.
- Movement from **Old Normal** to **New Normal**?
- As a matter of fact Normalcy is a function of life and the only normal thing is change or transformation. ***Normal is a continuum***
- The mode of educating people has been changing, it continues to evolve and transform the society.
- The world has since 1728 changed from face-to-face (**normal then**) to E-learning (**normal now**)
- The future has come!

In the Beginning...

Emergence of ODL

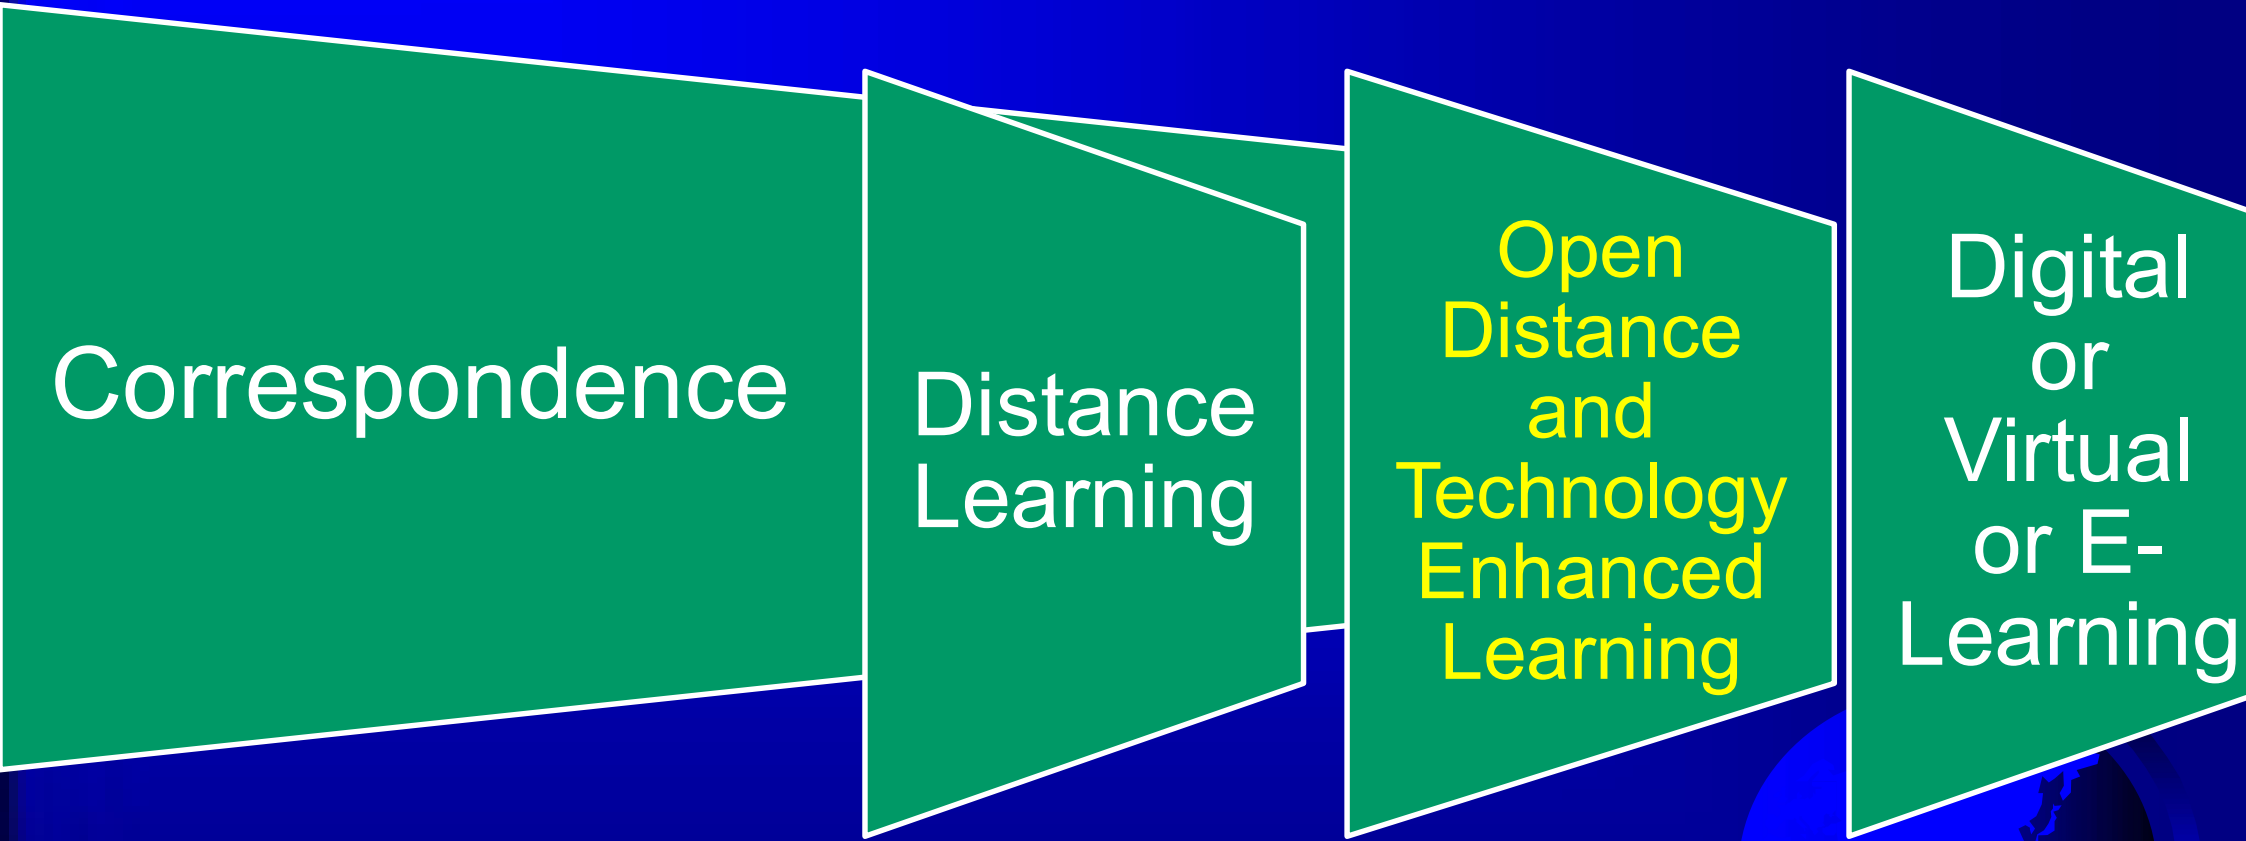

- **Open and Distance Learning began as a very simple concept of correspondence education**
- **1728 Caleb Philipps (Boston, USA) taught Short Hand by post**
- **1843 Isaac Pitman taught Short Hand in the UK**
- **1873 Anna Ticknor created DE for skill development for women**
- **This method has revolutionised teaching and learning**

The Road to E-Learning

■ Distance learning first used in Higher Education in 1892 at the University of Wisconsin

Resilience in Education

Factors shaping ODL

- **Quasi-separation of learner and tutor/institution**
- **Provision of Instructional materials and student support services**
- **The use of technology to mediate instruction**
- **Two-way communication between student and institution for management purposes**
- **Use of one-to-one, learning groups or tutorial groups for counselling, tutorials and management**

Guiding principles

- **Flexibility**
- **Innovation**
- **Partnership**
- **Reliability**
- **Security**
- **Citizen participation in learning communities.**

Trends in ODL

- 1. ODL is now mainstream: online, blended, open, flexible and technology enhanced learning.**
- 2. Digital transformation is challenging the relevance of educational institutions all over the world.**
- 3. New methodologies; Learning Analytics, Big Data, and doing away with examinations as we know them.**
- 4. Revolution in Education caused by convergence of Research. Artificial Intelligence, Block Chain, Cognitive Science and Neuroscience.**
 - Lack of the Understanding of the concept of online, open and flexible education.**
 - 7. Skills for employment, is a hot topic and Life long Learning is becoming more important than ever.**
 - 8. Quality, quality assurance and accreditation become a top priority issues.**

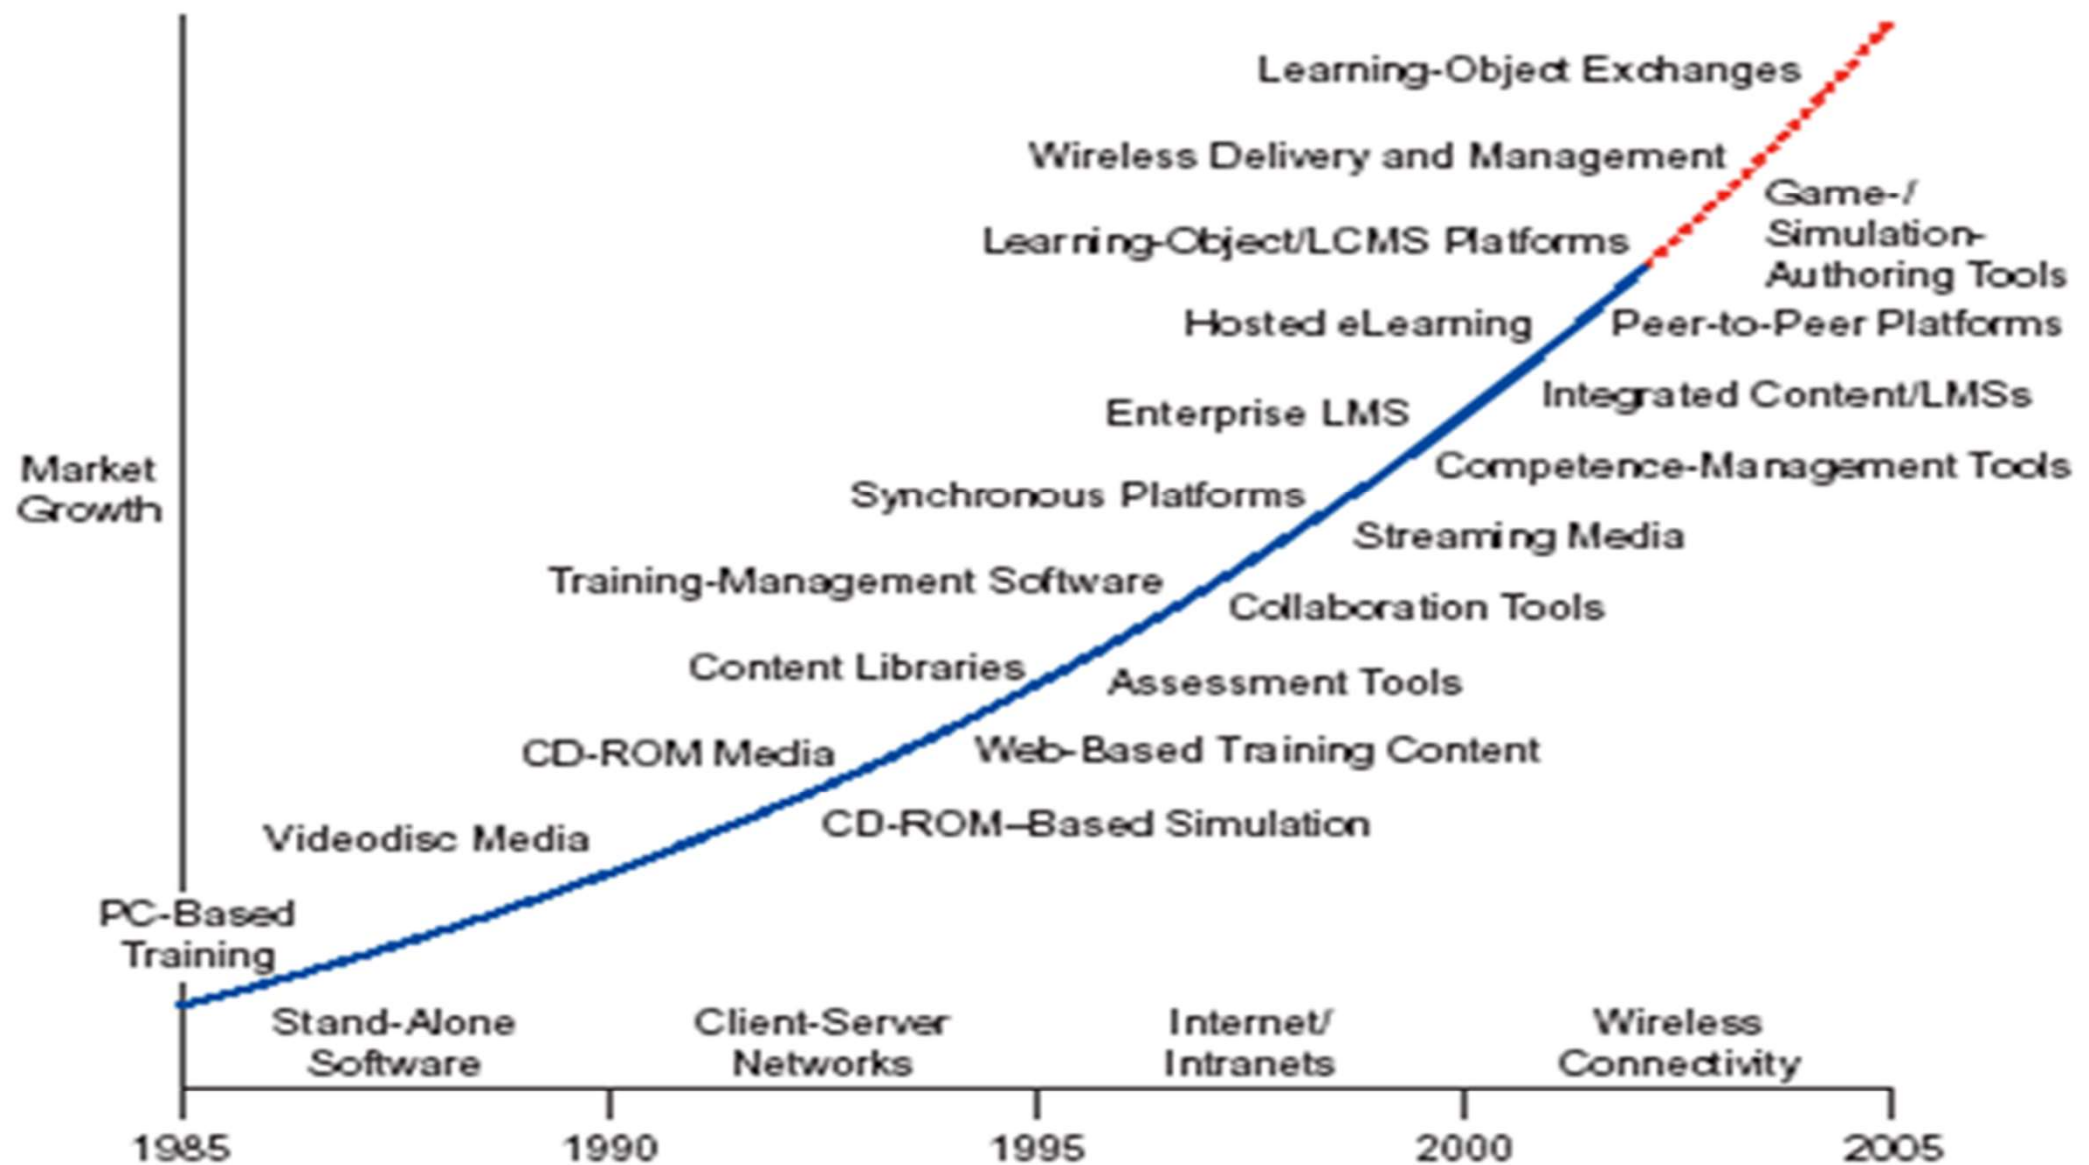

2 Mega Factors

- Two mega factors have propelled the emergence of communication technologies in modern day teaching and learning.
 - The transformative power of technologies and
 - the global pandemic of Covid-19.
- Coronavirus disease 2019, christened by the World Health Organisation (WHO) as COVID-19 originated from Wuhan, China, in December, 2019.
- The pandemic accelerated ODL and the use of modern technologies

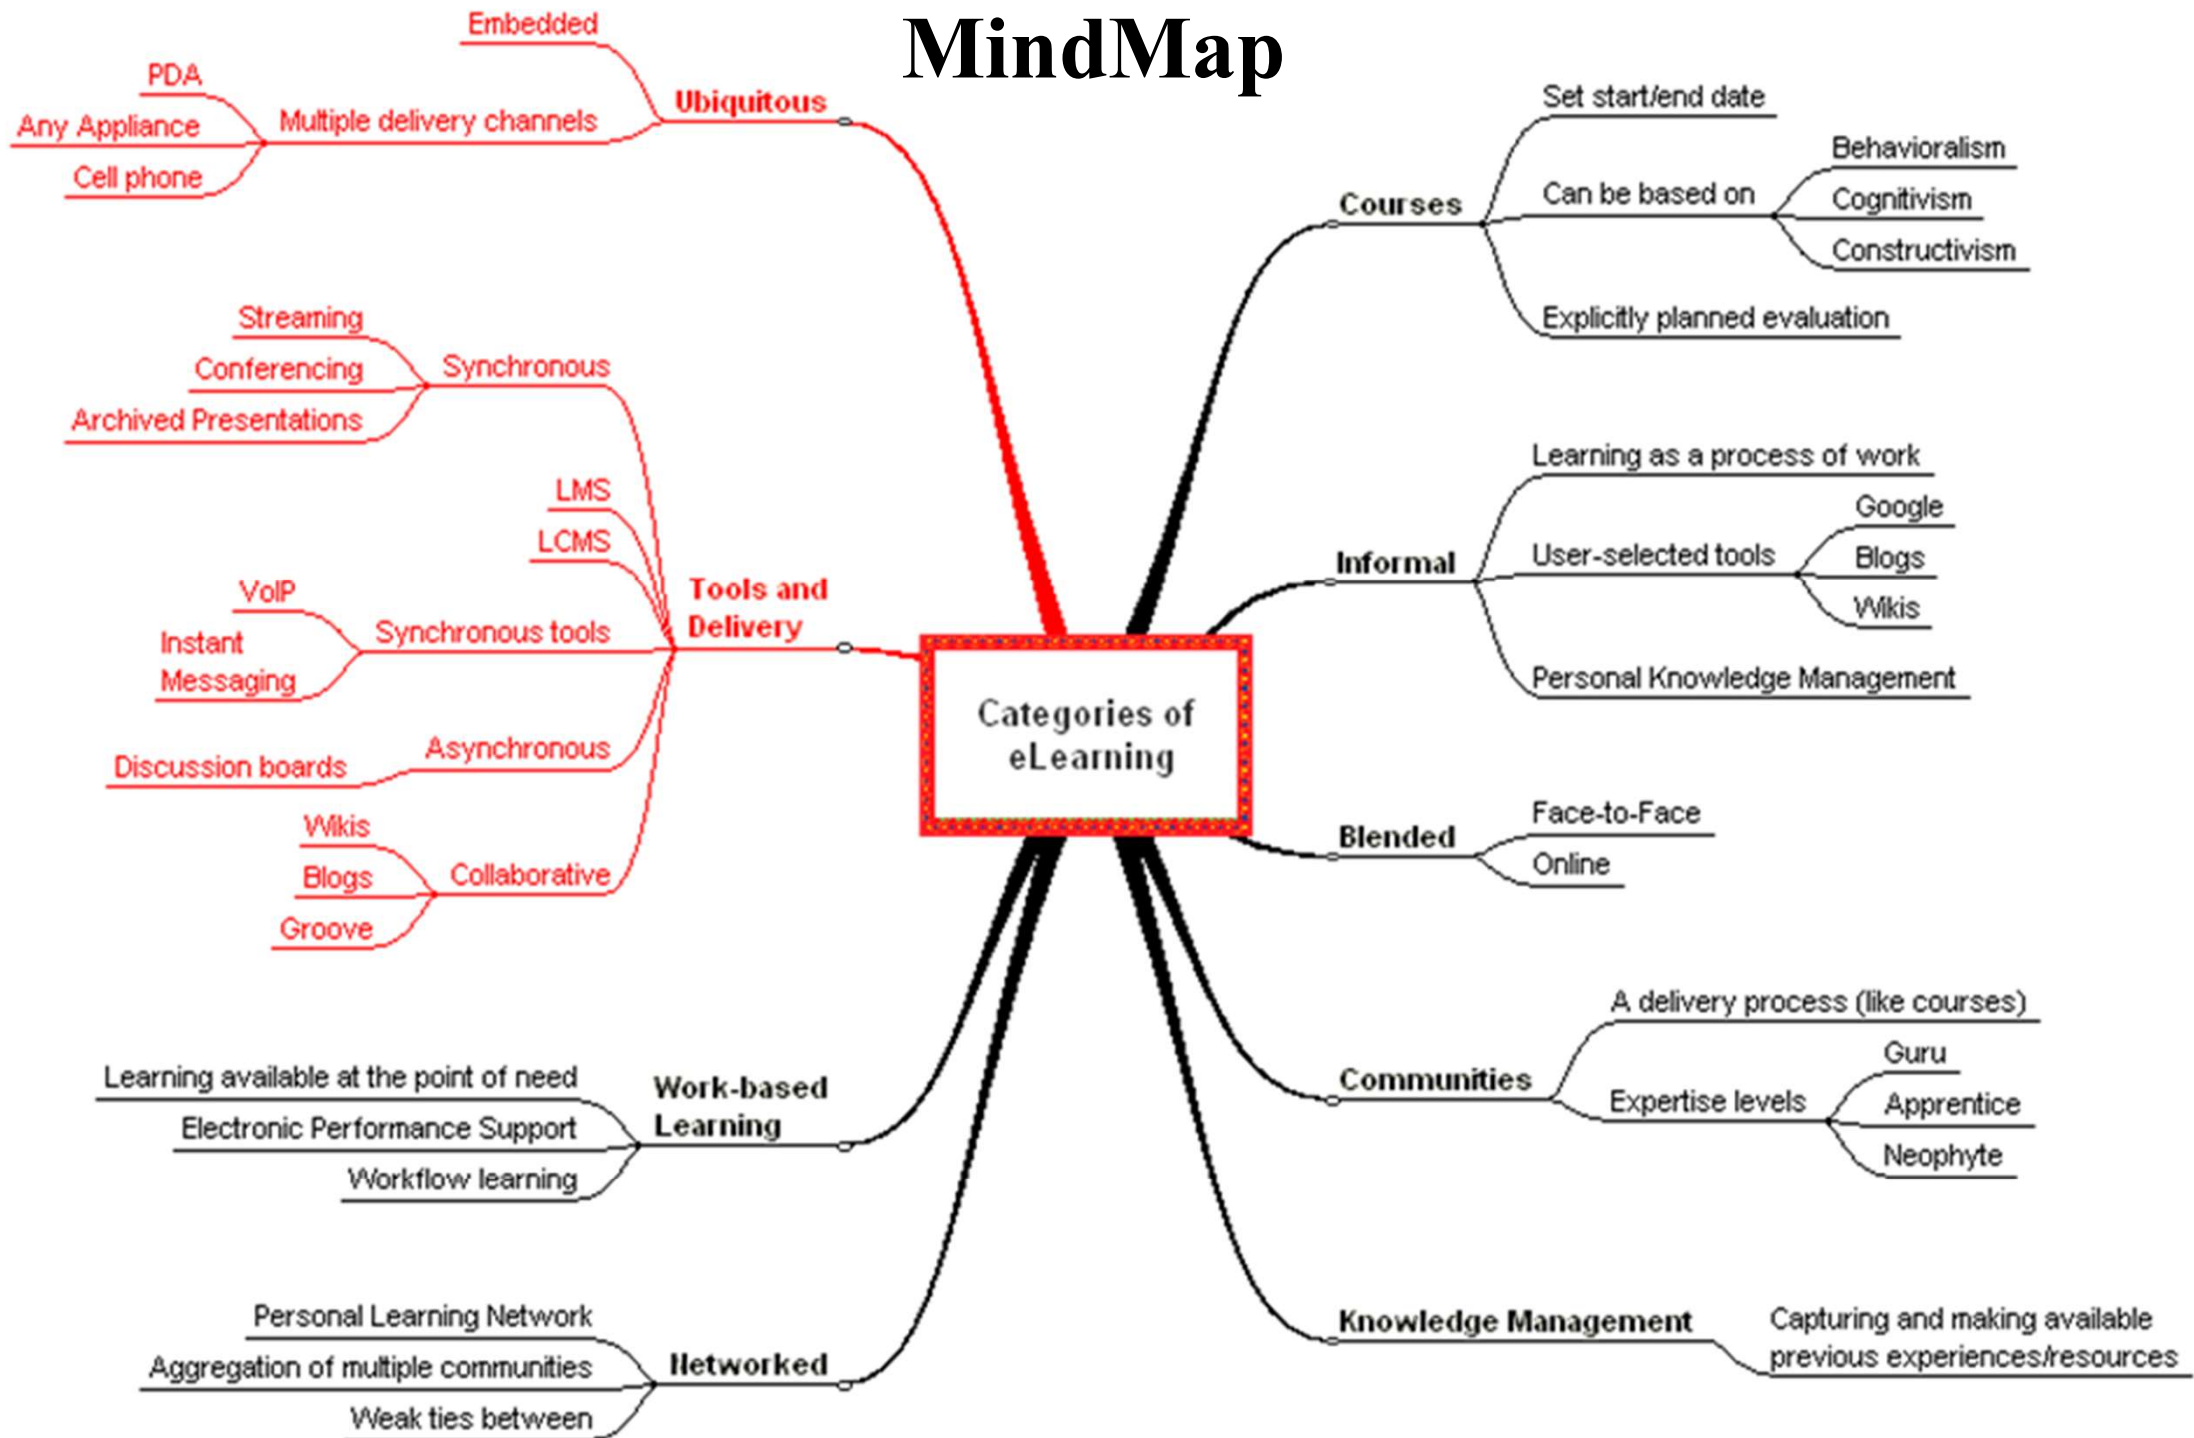

TECHNOLOGY EVOLUTION IN eLEARNING

LCMS = Learning-content-management systems; LMS = learning-management systems;
CD-ROM = compact-disc read-only memory.

MindMap

Technology & Teaching

- **Technology always had a defining role in teaching/instruction**
- **Moses (the first known ODL student) received instruction through two tablets of stone**
- **Written letters were sent to Ephesus, Corinth, Galatia, Thessalonica, Philippi and Others**
- **Use of Technology in ODL has progressed from Print to The Web/Internet**
- **Technology has become the strategic agent for empowerment and transformation**

Effects of COVID-19

- COVID 19 pandemic devastated all sectors including businesses, travel, households and families since December, 2019.
- It has disrupted Education (teaching and leaning).
- more than 2 billion students and youth across the planet are affected by school and university closures due to the COVID-19 outbreak.
- Learning loss, both in the short and long term, when fully measure will be colossal.

**Recalibrate
our Mode of
Education**

Emerging power

Social media, e.g Facebook, Twitter, YouTube, Flickr, Tumblr, Pinterest, Google+, Instagram, LinkedIn etc may now constitute 7th generation of models of E-Technology

The change

■ From focus on

- Quality of students admitted
- Qualification of Staff
- Design and management of programmes
- Rigour of marking
- Course outputs as intended outcome?

■ To focus on

- Student engagement and satisfaction
- Data analytics
- Reflective assessments by students
- Student-instructor-student interaction
- Assessments for learning
- Staff satisfaction and engagement

Part of Our Dress Code

- **The inevitability of instability**
- **Continuous disruption**
- **Teaching and Learning will continue to be redefined**
- **Learners will take increasing control of their learning**

Patterns of Specification for E-learning & Technologies

Approach to ID for Online Learning

Pedagogical approaches or perspectives:

Instructional design – the traditional pedagogy of instruction which is curriculum focused, and is developed by a centralized educating group or a single teacher.

Social-constructivism – this pedagogy is used in discussion forums, blogs, wiki and on-line collaborative activities. It is a collaborative approach that opens educational content creation to a wider group

Webagogy

Web-based environment

New instructional model

Web-based Communication

- type
- time element

- Hyperlink
- Associative
- Non-linear structures

Learning theories
Instructional strategies
Cognitive constructivism

Epistemology, pedagogical strategies

Inclusiveness

The Current Normal

- C21st World and Way of doing things
- C21st Learners
- C21st Teachers
- C21st Learning ecology
- The current normal in ODL teaching and learning has arrived
- It now has to be fully online....no more blended

The Next Normal?

- Deal with the sustainable future we want
- The current normal face2face and virtual teaching and learning are fast changing
- They will merge. Focus will be on the skills acquired, innovative and creative capacity of the learner
- Teaching and learning will be fully online....no more blended.
- Any nation or educational system that neglects this transformation will not be reckoned with.

Education 2030 Framework for Action (FFA)

- UNESCO is entrusted to lead Sustainable Development Goal 4 (SDG4) - Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all - through the Education 2030 Framework for Action (FFA).

Weapons of Inclusivity

JAN 2021

GLOBAL HEADLINES

ESSENTIAL HEADLINES FOR DIGITAL ADOPTION AND GROWTH

CHANGES TO DATA SOURCES MEAN VALUES ARE NOT COMPARABLE WITH PREVIOUS REPORTS

TOTAL POPULATION

7.83 BILLION

URBANISATION 56.4%

ANNUAL CHANGE +1.0% +81 MILLION

MOBILE CONNECTIONS

8.02 BILLION

vs. POPULATION 102.4%

ANNUAL CHANGE +0.9% +72 MILLION

INTERNET USERS

4.66 BILLION

vs. POPULATION 59.5%

ANNUAL CHANGE +7.3% +316 MILLION

ACTIVE SOCIAL MEDIA USERS*

4.20 BILLION

vs. POPULATION 53.6%

ANNUAL CHANGE +13.2% +490 MILLION

we are social

Challenges

- 1. Keeping our focus about the objectives of teaching and the real needs of the masses**
- 2. Use technology cost-effectively; the simpler the better. Emphasis on the message, not the medium**
- 3. Meeting the professional needs of practitioners: teachers, designers, etc**
- 4. Socio-economic circumstances and demography**
- 5. How to be on top of your game!**

Learning in the 21st C

- By 2025, over 60 per cent of learners will study through ODL
- By 2050, 75 per cent of those studying by DL will be between 18 to 25 years of age
- Massive use of cutting edge technologies mobile devices in teaching and learning with extensive satellite coverage
- New environment and new ways of learning
- New definition of large campuses
- Learners will increasingly take control of their learning situations

Conclusion

Transformation

- Transformation of self (individual, institutional)
- Transformation of practice (leadership, infrastructure)
- Transformation of society (vision, mission, people)
- Transformation of the environment (social, ecological, financial, networks)

What kind of transformation should we aim at to effectively use technologies in teaching and learning?

Customer Service

- How well we're serving our clientele – the learners.?
- 'what's our customer value proposition?
- In our higher education we confuse our *model* with our *mission*.
- our model of educating learners is under threat.

Core Mission of Higher Education

- for the next normal:
- Create opportunities for ALL to discover and develop their potentials without any hindrance or obstacle whatsoever, and to use them to make a difference in the world.
- We must recalibrate a resilient and inclusive Open Distance and E-Learning for a simple straight forward answer:

ODeL Ecosystem

- The movement from targeted population to open education (open access, open learning and open scholarship)
- Make free and open source technologies available to teachers and students. Open educational resources and open access digital tools must be supported

Thank you

Enjoy the rest of
your day
